For a meeting with SOS and the Gov's office next week, Paul needs to know ASAP (COB Friday) the number of employees and associated hours worked on EIC.

This is not just overtime accounting, but **any amount of time** worked doing something related to EIC.

Lisa, this would also mean yourself and anyone you had assisting with checking the validity of EICs.

Tom, Rosendo, this includes the time you spent on the inventory procedure.

John, include all time that your worked the EIC advertising campaign

Sandra, you should also include the amount of time for processing all the procurements. We should probably get the numbers from Monica/Vania or whoever that worked the actual procurements.

Andrea,

I know you already received this request from Paul and have provided the info.

Folks-
I apologize for asking this from you as an urgent message. I need to know from you **how many people actually worked on the EIC project**, even if it was only for a limited number of hours; **everyone that did something** to include the Saturdays and all the mobile units, whether Phase I or Phase III, drove a car or truck to transport equipment, and include yourselves and any managers as well. If you have access to the **total hours worked on EICs**, not just overtime hours, I need that as well. **If you don't have the exact numbers, please estimate.** For those of you who had HP troopers at your Saturday offices, please let me know how many of them were involved also.

I need this as soon as you can get it to me. Again, I apologize for the rush. Thanks, Paul
